

## Andrew Grill Biography 2026

Based in the UK, Andrew Grill helps European and global businesses make sense of AI.

He's the AI expert who speaks your business language. After over 30 years building tech solutions at companies like IBM and a range of high-tech startups, Andrew now helps executives navigate AI without getting lost in the complexity.

Named in the Global Guru top 30 Futurists list for 2026, Andrew Grill is a London-based, award-winning global AI keynote speaker serving clients across the UK, Europe, and worldwide and is one of the most in-demand AI Keynote speakers around. He holds both a Master of Engineering and an MBA, combining technical expertise with business strategy.

He has held senior leadership roles, including Global Managing Partner at IBM, and has collaborated with C-suite teams from organisations such as Shell, Vodafone, Dell, SAP Concur, Nike, Nestlé, and the NHS.

Andrew has delivered over 650 keynotes in over 50 countries on topics such as generative AI, quantum computing, digital transformation, and the future of work.

Ranked among the world's top 10 futurist speakers and a finalist for AI Expert of the Year, in 2025, he was recognised on the AI 100 UK List as one of the country's leading voices in responsible Artificial Intelligence.

He is the author of Digitally Curious, an international bestselling guide to navigating the future of AI and technology, and host of the Digitally Curious Podcast, where he translates complex trends into actionable insights.

Andrew is a regular media commentator, featured on BBC Television & Radio, Sky News, LBC, and in publications such as the Financial Times, The Guardian, and The Economist.

He also serves as a Non-Executive Director of the Britain Australia Society, is a brand ambassador for leading tech firms, and is trusted by boards and executive teams worldwide for his strategic advice.

Senior executives choose Andrew Grill when they need practical AI strategy, future-ready insights, actionable roadmaps and strategic clarity on Generative and Agentic AI, and emerging tech.

Some of Andrew's distinctive keynotes include:

**Are you ready for Generative AI?** – In this rapidly changing world, artificial intelligence is having an impact everywhere. The arrival of new generative AI platforms such as ChatGPT will deeply disrupt industries everywhere, from education to finance. Are you ready for these changes, and what can you and your firm do to adapt?

**From Turing to Transformers: The unfolding AI revolution** - AI has been around since the 1950s, but only in the past year has it piqued the general public's interest, thanks to ChatGPT. What is the current state of AI? How did we get here, and what's next in the field of AI for every industry and job function?

**The Workplace of the future under AI** – The nature of work under AI is about to change, so how can you and your employees adapt and build a human-centric workplace fit for the future? What does work look like in the age of Generative AI?

**Becoming Digitally Curious** - Do you lean forward when the latest piece of technology is discussed? This talk will equip you with ways to better use and understand technology and be ready for a digital-first world.

**Disrupt or Be disrupted** – What is digital disruption, how can companies prepare for disruption, and how can you have a discussion with your board about the issues? How can innovation drive digital transformation, how the network effect will drive innovation, and what can happen to your company if you become disrupted?
